

RISHIPAL SINGH

Full Stack Developer

rishi191816@gmail.com | +91 8437953411 | Hoshiarpur, Punjab | [Github](#) | [Linkdin](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with a strong foundation in JavaScript, building MERN stack applications through hands-on projects. Skilled in React.js, Node.js, Express.js, and MongoDB, with experience in RESTful APIs, JWT authentication, responsive UI design, and performance optimization. Eager to apply my skills to real-world projects and grow as a software engineer.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive UI

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, Mongoose, MySQL (Basic)

DevOps & Cloud: Docker, AWS EC2, Git, GitHub, Docker, CI/CD Basics, Deployment (Vercel, Render, Netlify)

Tools & Platforms: Git, Postman, VS Code, GitHub Actions (Basic)

Concepts: MVC Architecture, API Design, Authentication, Performance Optimization, Web Security (CORS, XSS, CSRF)

WORK EXPERIENCE

Full Stack Developer Intern (MERN) | Jan 2026 – Mar 2026

TechCadd :-

- Built and owned full-stack MERN features end-to-end, learning to connect frontend, backend, and database independently.
- Designed 10+ REST APIs and understood how real request-response cycles, error handling, and routing work in production.
- Implemented JWT authentication from scratch – route protection and token management finally made sense in a live codebase.
- Improved code quality through senior code reviews, learning to write cleaner Express.js and React code every week.

Web Development Intern | 45 Days

MVT Career Company :-

- Developed responsive web pages using HTML, CSS, and JavaScript
- Applied UI/UX principles to enhance usability and design consistency
- Built basic backend functionalities using Node.js and Express.js

PROJECTS

InsightCV | [Live](#)

- Built an AI-powered ATS Resume Analyzer using Gemini API, implementing resume parsing and scoring system
- Developed 10+ REST APIs and handled PDF/DOCX file processing, converting unstructured data into structured insights
- Implemented semantic keyword matching and skill gap detection, improving resume-job alignment by ~30%
- Optimized backend performance, reducing response time by ~25%, and deployed a responsive UI using React.js

BroBlogger – Full-Stack Blogging Platform | [Live](#)

- Developed a full-stack blogging platform with user authentication and session management
- Built an Admin dashboard to manage posts and content workflows
- Designed and implemented secure REST APIs with session-based authentication
- Structured the application using MVC architecture for better scalability and maintainability
- Created a responsive UI using EJS and Tailwind CSS

EDUCATION

Bachelor of Technology (B.Tech) – Computer science engineering

CT Group Of Institution , Shahpur Jalandhar

Expected Graduation: 2026

Class 12th - Non-Medical
